

HODORI

CLOCK-IN // CLOCK-OUT

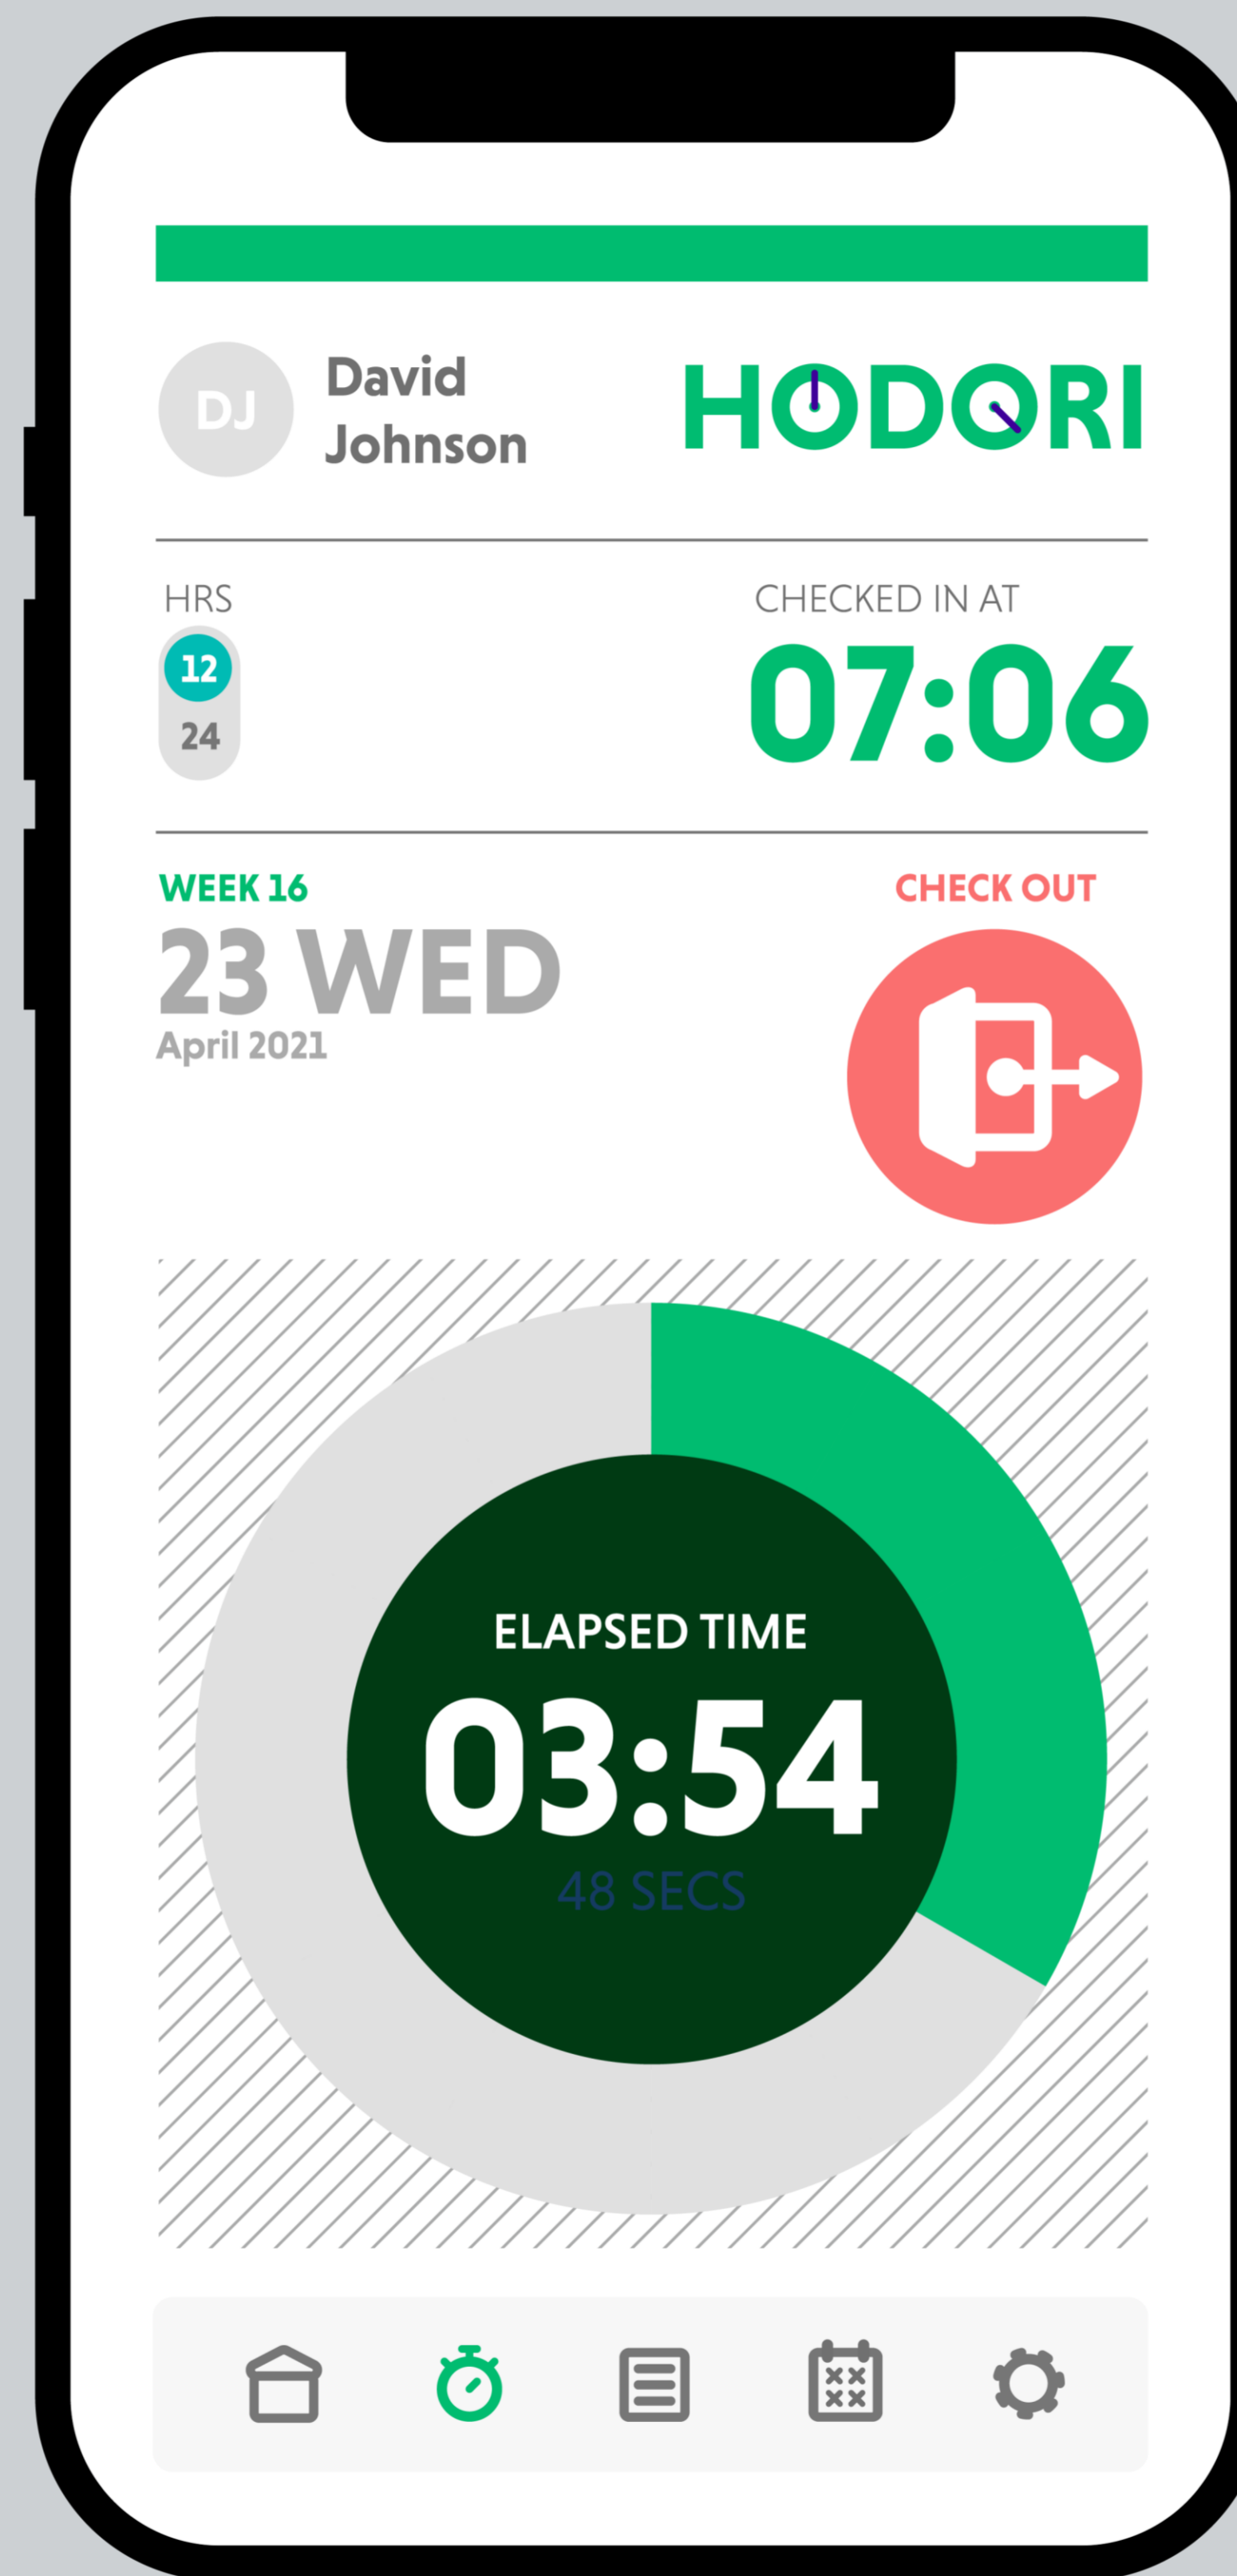

THE EMPLOYEE CLOCK-IN & CLOCK-OUT MOBILE APP

SWORD
UPGRADE YOUR BUSINESS

HODORI

CLOCK-IN // CLOCK-OUT

Hodori created by Sword is a modern state of the art mobile app that allows employees to clock-in and clock-out from any location

Hodori is an easy and contactless smart solution that offers the organization's employees with several digital services including attendance management.

It is the perfect application for today's post Covid world - by creating an additional layer of personal safety by reducing interactions with external surfaces by the using Hodori.

Hodori automatically captures the employee's attendance based on their clock-in / clock-out times based on when they access or leave the office geolocation.

The geolocation can be configured to not only a building but to any area or floor level.

The app gives them quick access to their attendance records as well.

Core features

How it works?

REGISTER

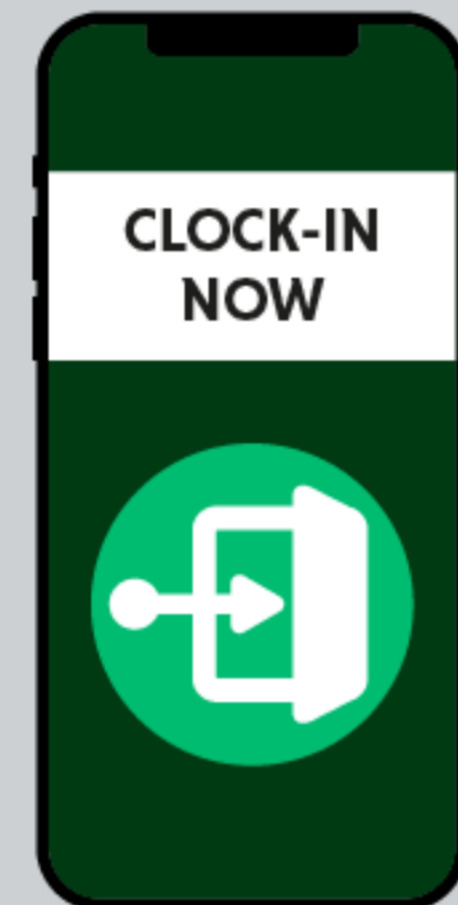

Employee registers within Hodori.

Employee sets their preferences for auto or manual clock-in / clock-out.

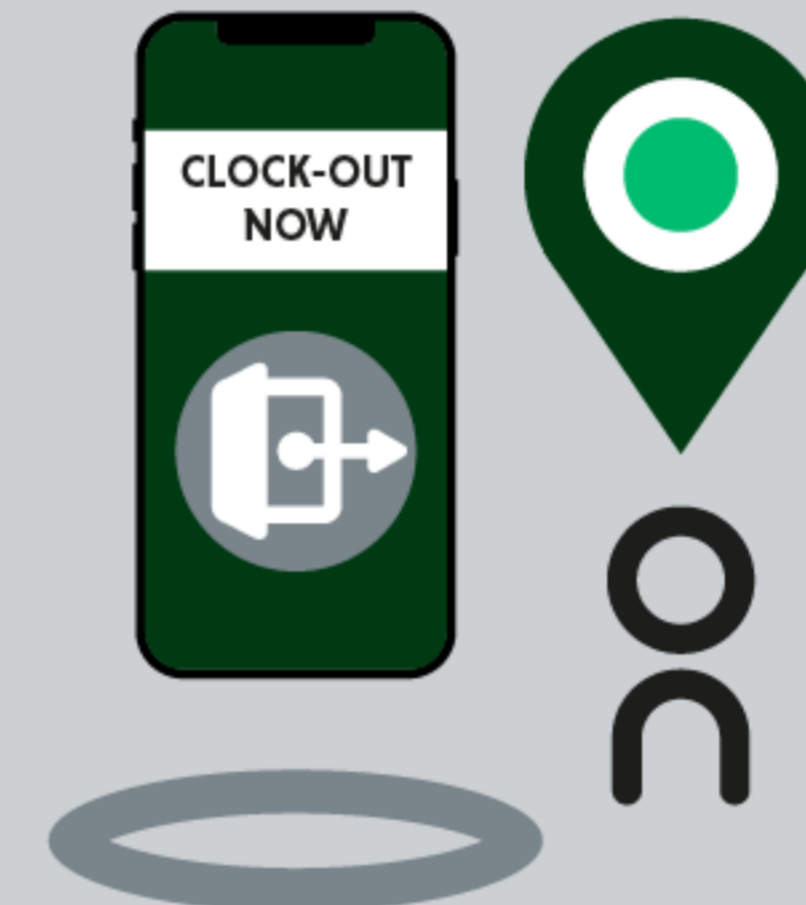

ARRIVE AT LOCATION

On entry to specific location the app can auto clock-in based on users geo-location.

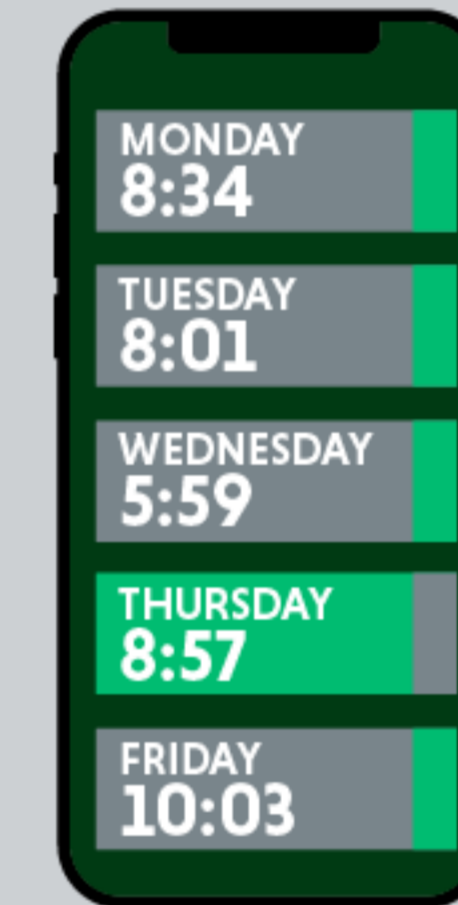

CLOCK-IN

Alternatively the employee can manually clock-in through the app.

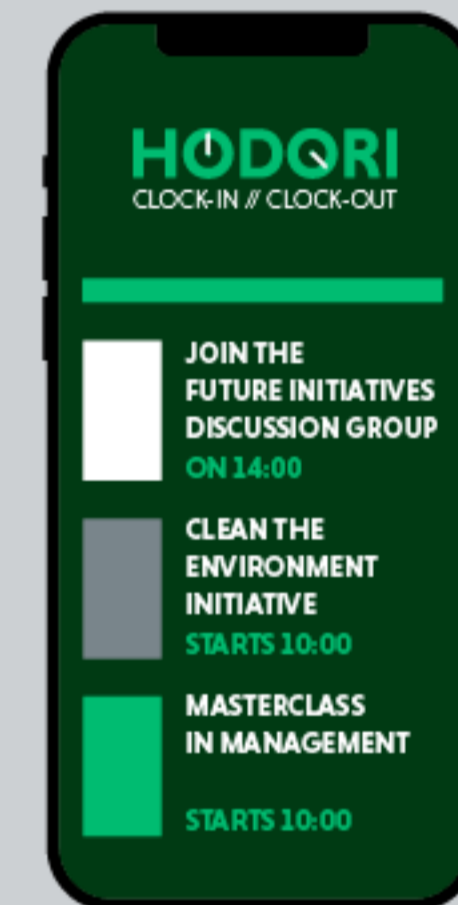

CLOCK-OUT

At the end of the day employee can simply just leave the location to clock-out or manually do so via the app.

VIEW REPORTS

Administrators and employees can view their clock-in history at anytime.

ORGANISATION ANNOUNCEMENTS

Employees can view organisation specific announcements directly on Hodori.
