

Sword Group recruitment fair in India proves a resounding success

Chennai, INDIA – Sword Group successfully hosted its first recruitment fair in Chennai, India with over double the anticipated attendees.

The event proved a significant draw to software engineers in the area and a number of job offers have already been made on the back of the evening. The aim of the event was to raise awareness of Sword in India and outline the variety of roles that are currently on offer in both Sword’s Chennai and Pune offices.

Pradeep Banerji, CTO Sword Group said “It was exciting to see so many talented individuals looking to take the next step in their careers and Sword is currently offering a number of opportunities in India, with a long term recruitment plan to support our growing business. We are offering a number of opportunities for talented individuals to establish challenging, exciting and rewarding careers with Sword Group.”

With over 200 guests at the event Sword was impressed at the calibre of the individuals who attended the evening’s event at Hotel Ambassadors Pallava .

Sword Group used the opportunity to showcase the business and the types of careers available. Staff from Sword Group’s Chennai office were on hand during the event to meet those interested in roles with the company and included both technical professionals and the Human Resources department. In addition the Group’s CEO Heath Davies and CTO Pradeep Banerji, from the United Kingdom, were on hand to present the company’s vision for it’s base in India.

Recruitment opportunities within Sword Group in India include software engineers and developers, project managers, testers and quality engineers. Sword Group currently employs just under 2000 people worldwide with a presence in 55 countries.
